SUMMARY

Experienced Software Developer with 2+ years in web development, proficient in JavaScript, React, Node.js, and Next.js. Specializes in building scalable applications and API integrations, particularly for e-commerce and warehouse management platforms. Proven track record of enhancing performance and optimizing code for efficiency. A collaborative team player with strong problem-solving skills, eager to contribute to innovative tech solutions.

WORK EXPERIENCE

Software Developer - Front end , Tegain Pvt Ltd   Jan 2023 - Present

- Developed and maintained responsive web applications using modern frontend technologies like HTML5, React.js, Next.js, and JavaScript, ensuring cross-browser compatibility and mobile optimization
- Collaborated with backend developers to integrate APIs and ensure seamless data flow between frontend and backend systems.
- Enhanced user interface components and optimized performance by implementing reusable React components, improving page load times, and reducing bundle sizes.
- Worked closely with UX/UI designers to translate wireframes and mockups into high-quality, interactive, and responsive user interfaces.
- Collaborated in Agile teams to meet sprint goals, contributing to project planning, task estimation, and timely delivery of features.
- Built scalable and maintainable codebases by adhering to best practices in coding standards, version control (Git), and code reviews, ensuring a clean and efficient development process.

EDUCATION & CERTIFICATION

Bachelor of Computer Application (BCA)   Aug 2016 - April 2019
Majlis Arts & Science college (affiliated with Calicut University)

- Acquired skills in software and web development, problem-solving, algorithmic thinking, and database management. Proficient in IT tools and systems, with a foundational understanding of networking and cloud computing concepts.

Full Stack Development Program Steyp (Initiative of Talrop)   July 2022 - Jan 2023

- Acquired skills in software and web development, problem-solving, algorithmic thinking, and database management. Proficient in IT tools and systems, with a foundation
- Proficient in front-end technologies including HTML, CSS, JavaScript, Bootstrap, Sass, and frameworks like React and Next.js. Experienced in responsive web design and UI/UX principles. Skilled in back-end development with Node.js, Python, and Django, alongside API development (RESTful). Strong knowledge of database management (MySQL, PostgreSQL) and version control with Git and GitHub.

Python Django Program (Internship)   **Oct 2021 - Mar 2022**
Arion Info Tech (Entraze)

- Developed web applications using Python and Django.
- Worked on real-world projects, implementing full-stack development.
- Created and integrated RESTful APIs for seamless front-end and back-end communication.
- Managed databases using PostgreSQL.
- Collaborated with team members using Git and GitHub for version control.
- Focused on scalable server-side logic and performance optimization.
- Gained experience in testing and debugging applications.

ADDITIONAL INFORMATION

- **Technical Skills:** Project Management - Agile methodologies, project management software (e.g., Jira), Microsoft Excel
- **Languages:** English, Malayalam, Tamil
- **Certifications:** Full Stack Development, ASAP (Additional Skill Acquisition Programme Kerala)
